These interesting things also happened

Sat, Sep 19 Bodyworker was delivered to Guest house in Sashima!

Natural method, Onomichi's house, Mr. Nakaide deliver bodywork for the first time. You are lucky to receive the remedy in Sashima. We will announce here if the next delivery will be planned.

Sat, Sep 19 to Sun, Oct 4 Host: Marufu Farm in Yuge Try at home with movie "Let's make a Igisu Tofu!"

This is a deluxe event because we can learn a recipe of island's local specialty, "Igisu Tofu" at home and meet local people.

Sat, September 19 ("Outdoor★Pizza Party!" at Renaissance in Yuge.

Itakura-san, a member of the island's revitalization team, planned this event. The elementary school students spread the dough and toppings of their choice and carry it to the oven, and the high school volunteers named 'Pec. Kamijima', are in charge of the pizza oven, throw it into the oven! It was baked in a hot kiln in no time, and we enjoyed it. Chickens and goats were milked.

Off-island Kamijima People #1

A section to connect with people from Kamijima who live outside the island started.

Our first guest is Ms. Matsui, who was born in Kamiyuge and lives in Yao City, Osaka Prefecture. Mr. Tetsu Nakamura, a doctor who works on humanitarian aid in Afghanistan, runs the secretariat of the NGO Peshawar Association Osaka, which he represents. It all started about 30 years ago when she saw the word "Peshawar" in a newspaper event column. When he was in elementary school, he saw a documentary film about the Karakoram Mountains at the island's gymnasium and was fascinated by the beautiful scenery he saw in the film. I hope she talks about her experience here someday.
